Look and Texture: the grains are uniform, without faults, and tender.

Instructions fo Preservation

Store the cans in a cool, dry place, far from heat; after opening, keep in a refrigerator (0-4°C) and eat rapidly. It is recommended to cover tins and pots where you put the product, in order to maintain its freshness and fragrance.

Sweet corn 1/2 – 3/1

Nature and Characteristics of the Product
This fresh, OGM free, at source selected maize is stewed and vacuum-packed without preservative liquids in order to maintain its organoleptic qualities and the sweet and natural taste.

Why Buy this Product?
This product enriches and gives colour to any hors d'oeuvre and side dish buffet, giving a captivating taste and look. The practicality of having a ready product, available for any use must be emphasized. The two possible sizes respond to any kind of necessity.

Concerned Customers
The primary customers for this kind of product are pizzerias and rotisseries. Valuable alternatives may be clubs and canteens.

Way to use
This is ideal as a side dish and is great for delicious mixed salads, or to enrich pasta salads, rice, Russian salads, pizza and fish hors d'oeuvres.

Chef's Ideas and Suggestions
Valtellina Rolls – Mix 500 g of maize with 500 g of fresh ricotta, season with salt, pepper, oil and balsamic vinegar. Lay some slices of bresaola, pour a spoonful of the mixture upon them, and shape some little bags you will tie with chive. Season with oil, salt, pepper, and slivers of parmesan.
